

Report on a trip to Vladivostok

The trip took place from March 17 to March 21, all in advance planned events were successfully held.

On March 18 in Biology-soil FEB RAS institute the Eighth scientific conference "Levanidovsky Readings" at which my plenary report "International year of the salmon" was heard started. History IYS as global project, its current projects and events and also plans for the near future is covered in the report. One of slides is devoted to the Salmon Alliance project. In the same day we listened also to other reports of ichthyological section, communicated to colleagues from other regions.

Salmon Alliance

smak02@mail.ru

Письма поддержки СахНИРО и Министерства образования СО.

Создание сети НКО, школ, музеев и др.

Возобновление старых проектов, разработка новых.

Работа Школ волонтеров.

On March 19 there was an opportunity to give a lecture about IYS for students of the 4th course Far Eastern State Technical Fisheries University. There was a lot of questions and discussions.

Also the conversation with the teacher of this institute, graduate of programs of Alumni Artur Mayss took place, joint actions on the Sakhalin are planned.

One more meeting took place in office of the Amur branch WWF the coordinator of the salmon program Olga Cheblukova (Kvitko) and the branch director P.E. Osipov. Possibilities of collaboration in regions of the Far East on all three projects posted from Russia on the website by IYS are discussed (Salmon Alliance, Freedom for Salmon, Green Light for Red Fish!).

On March 20 we received the invitation to visit the Primorsky Oceanarium in "the educational wednesday". We could examine all expositions, observe a fascinating show in the Dolphinarium and exchange experience with colleagues N.V. Miroshnikova and T.V. Chernykh. Especially interesting were contents of the Belek program of Children's studio for preschool children with parents.
